To: Principal Investigators of Interphone Study Groups

Australia	Dr Bruce Armstrong Dr Graham Giles	brucea@health.usyd.edu.au Graham.Giles@cancervic.org.au
New Zealand	Dr Alistair Woodward	a.woodward@auckland.ac.nz
Israel,	Dr. Siegal Sadetzki	siegals@gertner.health.gov.il
Italy	Dr Susanna Lagorio	susanna.lagorio@iss.it
Canada	Dr Daniel Krewski Dr Jack Siemiatycki	dkrewski@uottawa.ca j.siemiatycki@umontreal.ca

We understand that each of you has participated in the Interphone Study Group on various aspects (brain tumors, acoustic neurinoma, parotid gland tumors) and cell phone use, and that your study results remain unpublished. After four years, results have been published from eight different countries but some results remain unpublished (see Exhibit 1).

We ask for your cooperation in publishing your study results in the very near future. We have been in recent contact with Dr. Elizabeth Cardis. She has provided contact information for each of you so we can directly obtain these results through your publication of them in the peer-reviewed literature.

This will enable scientists and other experts not directly involved in the Interphone studies to get the whole pattern of results without further delay. Thank you for your kind support.

With best personal regards,

The BioInitiative Working Group by:
